

LEAD TEST KITS

Even low levels of lead are harmful

Parents, renovators, child-care centre operators, teachers,
landlords, agents, pet-owners:

*Find out if dust soil, drinking water, toys, paint, ceramics,
jewellery, and other items are safe for humans and pets;*

Buy a DIY-sampling /lab analysis lead kit

Our lead test kits are the only ones available in Australia for testing a wide variety of samples at a lab (which charges us a charity rate so you pay less).

You take the samples, and send them to Sydney Analytical Labs.

The lab analyses the samples, and we explain the results.

See the [fact sheet](#) for ideas about items and locations to test, and read why purchasers are so impressed with the kit and follow-up advice.

Purchase Kit here <http://www.lead safeworld.com/shop/> OR [print form](#) for mail order or fax.

Special while stocks last!

Free “[Local Heroes](#)” book for Sydney area purchasers of comprehensive kit.

**Comprehensive Kit \$275 or \$250
for LEAD Group members**

**Basic Kit \$120 or
\$100 for LEAD
Group members**

***Water Kit \$100 or
\$85 for LEAD
Group members**

Join The LEAD Group today! At <http://www.lead safeworld.com/shop/>
Membership is only \$10 per annum

*The water test kit requires less lab work and a lot less interpretation that is why it costs less.
Prices include postage within Australia, handling, lab charge, results, interpretation & GST.
Four videos showing how to use the sampling kits are now available on YouTube:

1. [Introduction](#)
2. [Test Kit Instruction - Part 1](#)
3. [Test Kit Instruction - Part 2](#)
4. [Test Kit Result Discussion](#)
